On creativity, survival, and what success looks like

Singer, artist, and punk icon Steve Ignorant discusses the common threads that run through his body of work, the ways his creative practices have (and haven't) evolved over the years, and the ways success and survival go hand in hand.

What is the common thread behind your hugely disparate work in projects like Crass, Punch and Judy shows, and now Slice of Life?

You've always worked outside of the regular "industry"; in creating and disseminating your art and music, what would you count as the most valuable resources? For some people that's having access to a studio, or it's instruments, or it's other people, or channels for distribution.
